INFORMATION TECHNOLOGY | IT SUPPORT | SEEKING INTERNSHIP

SUMMARY

Result-driven Information Technology student with proven academic excellence and leadership experience as a Business Analyst and Project Lead. Skilled in technical project management (Agile, Jira, documentation), systems mapping, and graphic design, with a strong commitment to continuous learning and expanding my expertise in technical support and network security operations. Seeking an internship opportunity to apply my organizational leadership, analytical skills, and adaptive mindset within a dynamic corporate environment.

EDUCATION

Aug 2023 - Present

Bachelor of Science in Information Technology

Pamatansan ng Lungsod ng Valenzuela

- Business Analyst - Valenzuela Information Technology Society (2025 - 2026)
- Deans Lister (SY. 2023-2024)
- UMAK IT Skill Contest Participant (2026)
- Thesis on PLV Integrative Facility Mapping.

SKILLS

Project Management

- Agile Project Management using Jira to track sprints, manage product backlogs, and streamline development workflows.
- Collaborative Workspace & Documentation using Notion and Confluence to centralize project wikis, meeting notes, and knowledge bases.
- Visual Task Tracking & Workflow Automation using Trello and Asana to manage Kanban boards, assign tasks, and maintain clear team accountability.
- Technical Diagramming & Architecture Mapping using Draw.io (diagrams.net) to design clear Data Flow Diagrams (DFDs), wireframes, and system processes.
- Milestone & Deadline Tracking to ensure timely project delivery through effective task prioritization and resource allocation.

Graphic Designing

- Visual Asset Creation & UI Layouts using Adobe Photoshop, Figma, and Canva to design high-fidelity user interface components, promotional layouts, and digital media.
- Digital Layout & Asset Optimization, leveraging web-based design platforms like CapCut for rapid multimedia content creation and alignment with strict brand guidelines.

WORK HISTORY

Feb 2025 - May 2025

Project Lead & Documentation Lead, Febrero Dental Website

- Agile Project Coordination: Led a team of developers and designers, establishing structured workflows and organizing daily stand-up meetings to ensure cross-functional alignment.
- Progress & Performance Tracking: Centralized and managed daily and weekly team accomplishments using Jira and Notion to monitor milestones and ensure deadline compliance.
- Client Relationship Management: Acted as the primary point of contact for the client, translating their business needs into clear technical documentation and delivering regular progress updates.
- Systems & Requirements Gathering: Conducted deep-dive data gathering and structural mapping to create comprehensive software quality documentation and system blueprints.

Freelance Graphic Designer

March 2024 - Present

- Esports Creative Design: Graphic Artist for a professional player from Aurora Gaming PH, collaborating closely with the player to design personalized branding assets, player profiles, and high-engagement social media media kits.
- Community & Commercial Branding: Provided freelance design services for local barangay initiatives and small-to-medium enterprises (SMEs), creating high-quality promotional layouts, logos, and digital marketing materials.
- Client-Centric Visual Execution: Managed the complete creative process from conceptual design to asset deployment using Adobe Photoshop and Canva, ensuring all deliverables strictly aligned with diverse client brand guidelines.
